

IMMUNIZATION RECORDS REQUIREMENTS

MEDICALLY VERIFIED AND AUTHORIZED. Immunization records must be turned into the school on or before the first day of school. Immunization records turned in to the school must be from a health care provider, printed from the state immunization database, or you must attach paperwork from a health care provider with your handwritten Certificate of Immunization Status (CIS) form that shows your child's records are accurate. **Your child cannot attend school until you provide these records.** **I have many students' forms showing the required immunizations but they are not verified/authorized and therefore not in compliance.**

Here are some examples of medically verified immunization records:

- A completed [Certificate of Immunization Status \(CIS\)](#) signed by a health care provider. Find the CIS form by visiting <https://www.doh.wa.gov/SCCI> and clicking on "Certificate of Immunization Status."
- A CIS filled out by you or another parent/guardian with doctor signed medical records attached.
- A CIS printed by a health care provider or school from the Washington State Immunization Information System.
- A CIS printed from [MyIR](#) which is a free Department of Health online tool that allows families to view and print their official immunization records themselves. Go to <https://wa.myir.net/register> to begin the sign-up process. ****I strongly recommend you start here. If your students' information is on this site it is the quickest, easiest way to comply with this requirement. ****

As of 2020, the Archdiocese of Seattle Policy does NOT ALLOW personal or religious exemptions to any immunizations. If you are requesting a MEDICAL exemption from one or more of the immunization requirements, you must provide the school a completed Certificate of Exemption, which includes a signature from a medical provider.
